Bottom Out Force	72.0 gf

# of Downstroke Points	1114

Testing Notes

- Data points 1742-1763 were removed from the upstroke force curve due to clear data artifact that was not actually present in the switch's feeling.
- By all considerations and appearances, a fairly normal linear force curve. Much like the Duck Sample 1 switches, the Duck Sample 2s have a notably longer overall travel distance than the release RAMA WORKS Ducks.
