

## Sunny Side Up Linear

Last Update: 12/11/2022

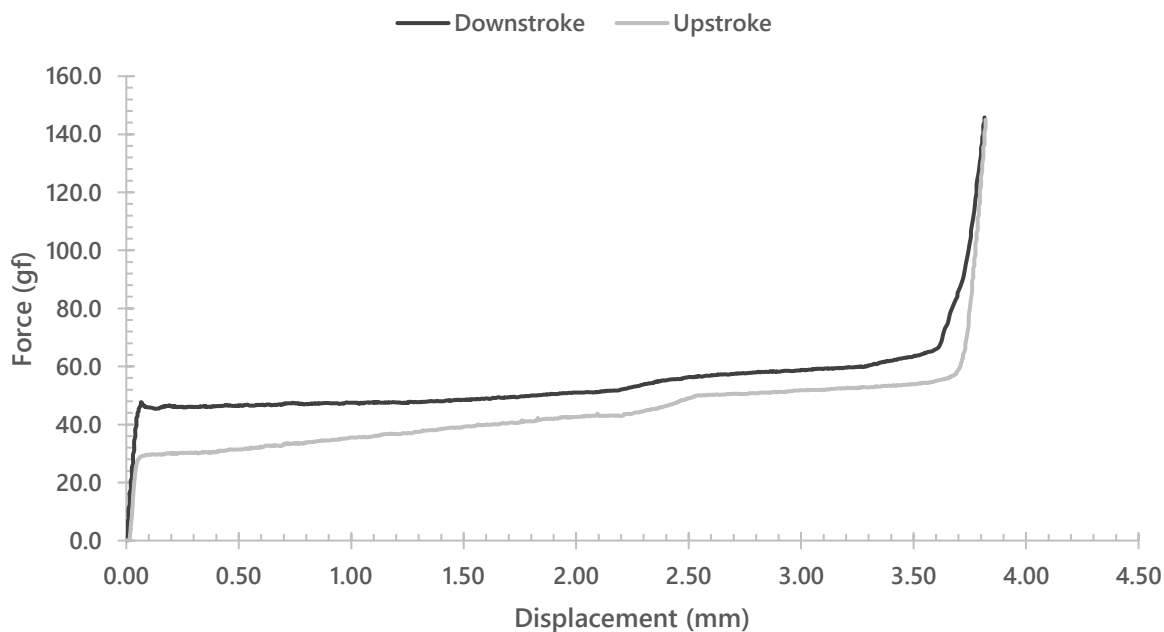

Sunny Side Up Linear	
Switch Type: Linear	Tecsee
Total Stem Travel	3.530 mm
Peak Force	64.0 gf
Bottom Out Force	64.0 gf
# of Upstroke Points	989
# of Downstroke Points	1109

### Testing Notes

- It's certainly a strange site to see such a separation between the entirety of the upstroke and downstroke curves in a switch like this. While you can still see the bump around 2.40 mm which corresponds to leaf interactions, there is no real substantial change in the force gap between the two lines on either side.
