Bottom Out Force	78.0 gf
# of Upstroke Points	1179
# of Downstroke Points	1264

Testing Notes

- Note: The stem and spring for this switch were simply placed in clear over translucent blue, 4 pin attachment Outemu housings from the era in which they were produced without lubrication.
- Amongst all Aristotle-like click mechanisms I've documented thus far, this is one of only a small handful which have produced the upstroke and downstroke overlapping which is extremely interesting as a feature.
