

## Commute

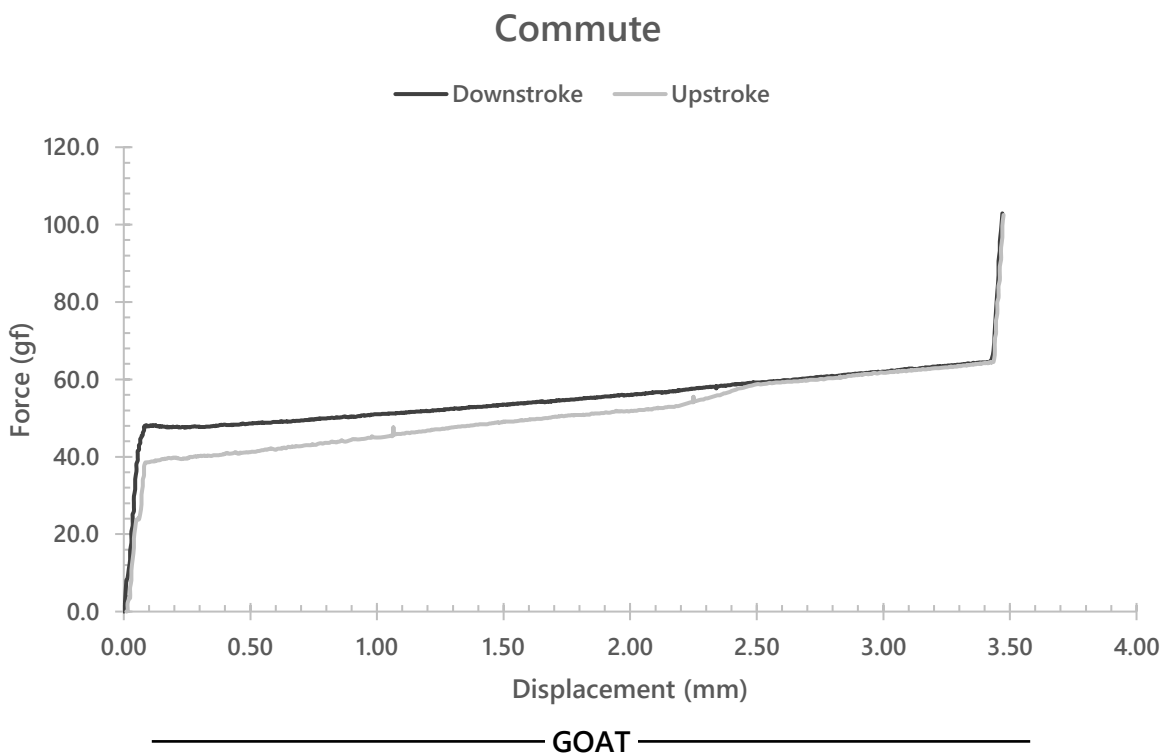

Last Update: 05/24/2022

Commute	
Switch Type: Linear	Durock/JWK
Total Stem Travel	3.500 mm
Peak Force	64.6 gf
Bottom Out Force	64.6 gf
# of Upstroke Points	799
# of Downstroke Points	1113

### Testing Notes

- By all considerations and appearances, a fairly normal linear force curve though notably extremely flat and free of noise relative to that of other force curves collected.
- Note the small data peaks at 1.10 mm and 2.25 mm in the Upstroke region are artifacts that are not a feature of the feeling of the switch though not significant enough as to detract from the force curve representation.
