

Clickiez 40g (Linear) Test 3

Last Update: 07/10/2022

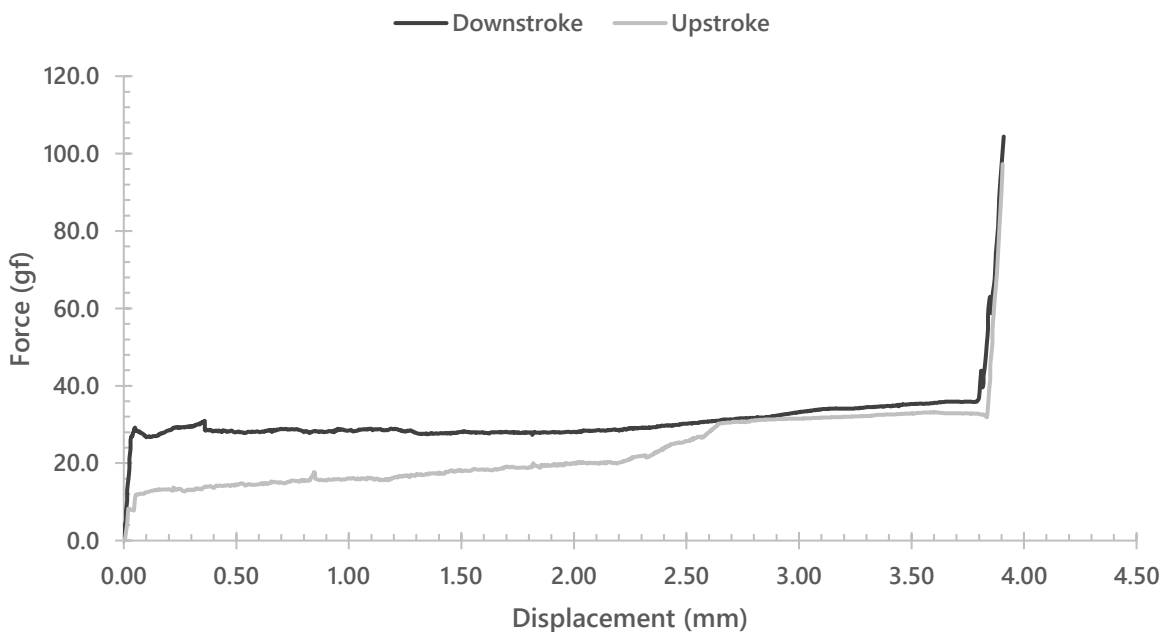

Clickiez 40g	
Switch Type: Linear	Gateron
Total Stem Travel	3.805 mm
Peak Force	40.5 gf
Bottom Out Force	40.5 gf
# of Upstroke Points	1059
# of Downstroke Points	1189

Testing Notes

- Data points 1927-1943 were removed from the upstroke force curve due to clear data artifact that was not actually present in the switch's feeling.
- The topping out of the Clickiez switches is quite strange. I've not seen a linear switch before that not only has two dips in force, but one that decreases to nearly zero force at the very top of the switch in the upstroke.
