

# M-Stone 15mm 75g Spring - Linear

Last Update: 07/03/2023

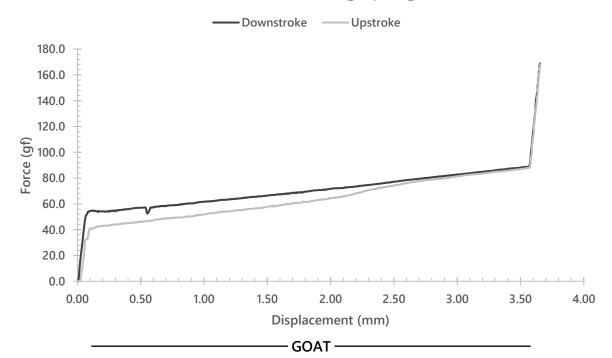

M-Stone 15mm 75g	
Switch Type: Linear	SPRING
Total Stem Travel	3.565 mm
Peak Force	88.8 gf
Bottom Out Force	88.8 gf
# of Upstroke Points	862
# of Downstroke Points	1102

#### **Testing Notes**

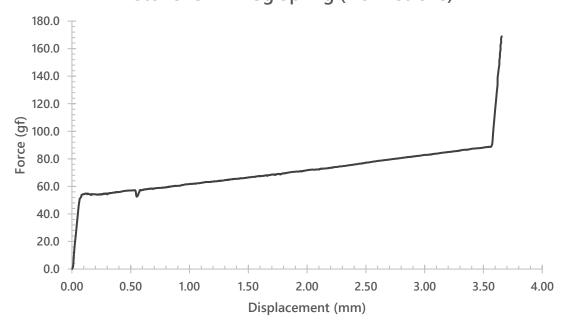

- -NOTE: This testing was done to compare a range of springs in a fixed switch design. The spring used in this testing was held in an otherwise stock KTT Custard switch.
- By all considerations and appearances, a fairly normal linear force curve with the exception of the one dip in force around 0.50 mm into the downstroke. It is worth noting that this *isn't* a data artifact upon looking into the numbers further.
