

Toy Brick	
Switch Type: Linear	Durock/JWK
Total Stem Travel	3.860 mm
Peak Force	68.6 gf
Bottom Out Force	68.6 gf
# of Upstroke Points	1259
# of Downstroke Points	1226

Testing Notes

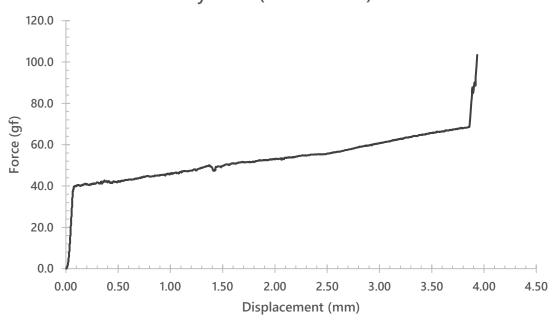

- Data points 2119-2131 were removed from the upstroke force curve due to clear data artifact that was not actually present in the switch's feeling.
- The pair of deviations at around 1.45 mm in both the upstroke and the downstroke are certainly indicative of some internal structural difference. As of the time of writing, this is the first and only time I've seen this in a switch's force curve.
